

Here you'll find some **example content** to show Aloha's *possibilities* regarding any kind of formatting.

Headline 1

Headline 2

Headline 3

Headline 4

Headline 5

Headline 6

Here we test, a [link](#) and other formattings such as **bold**, *italic* or ~~deleted text~~. You may also use formattings for maths  $2^2 = 4$  or chemical formulas like CO<sub>2</sub>. Or you may edit tables as you do in office products.

This	is	a	demo
table	with		an
awesome			column
and	row	span	!
